FINANCIAL DATA ENTRY

Just do your best. Do your best to enter the data requested accurately, but don't make this an unpleasant chore. You shouldn't spend more than one hour on the form. Values should be estimated to the nearest \$100 or \$1000.

Look through the whole form before starting. Before starting to enter financial information, look through the whole form first. This will allow you to enter data in the right place. A common error is entering 401(k) and IRA investments in the wrong place – 401(k) accounts are entered at Item **13** and IRA accounts are entered at Item **14**. Do not list these in Items **3**, **4** or **5**.

Use ownership abbreviations. How you own your property is extremely important for purposes of designing and implementing your estate plan. Please specify the ownership using one of the following abbreviations. For property owned by you as a single person, use **(S)**. If you are married and you or your spouse individually own the property, use **(H)** for husband and **(W)** for wife. If you and your spouse jointly own the property, use **(J)**. If you jointly own property with someone other than a spouse, use **(JTO)**. For property owned by a Living Trust, use **(LT)**.

How to list children's assets. Assets you hold for minor children such as savings bonds or UTMA (Uniform Transfers to Minors Act) accounts should be listed only in Item **18**.

Not enough space on the form. If you have more assets or family information to enter than space allows, you may enter the information on page 8.

■ SUMMARY OF VALUES

Joint values go 1/2 in husband's column, 1/2 in wife's column.
